EXECUTIVE SUMMARY

Informatics Engineering graduate passionate about designing digital products that solve real user problems through intuitive, user-centered experiences.

Experienced in the end-to-end UX design process, including user research, information architecture, wireframing, interactive prototyping, usability testing, and interface evaluation using User-Centered Design (UCD).

Skilled at collaborating with multidisciplinary teams and developers by leveraging a strong technical background in Informatics to understand the product development lifecycle and translate insights into meaningful experiences.

CORE SKILLS & THEMES

Interaction Design | UX Research | User-Centered Design (UCD) | Wireframing & Prototyping | Usability Testing | Data Analysis

CAREER HIGHLIGHTS

- Achieved a System Usability Scale (SUS) score of 72.0, indicating good overall usability for the MajorPath decision support design.
- Designed and evaluated MajorPath to help Indonesian high school students identify suitable university majors based on their interests, learning preferences, and career aspirations.
- Created an integrated academic administration and service dashboard ("Dashboard TIF") for the Informatics Engineering department during a collaborative internship.

EXPERIENCE

UIN Suska Riau

Pekanbaru, Indonesia
Apr 2026 – Jul 2026

UI/UX Researcher (Bachelor's Thesis)

Designed and evaluated MajorPath, a decision-support design that helps present high school students in the Indonesian curriculum identify suitable university majors.

- Conducted user research to understand students' needs and decision-making challenges.
- Designed user flows, wireframes, and high-fidelity prototypes using Figma.
- Applied the User-Centered Design (UCD) methodology throughout the design process.
- Evaluated usability using Nielsen's Heuristic Evaluation and the System Usability Scale (SUS).
- Iterated the prototype based on evaluator feedback to improve usability and user experience.

UIN Suska Riau

Pekanbaru, Indonesia
Jan 2025 – Jun 2025

User Experience Designer (Internship)

- Contributed to a joint internship project to create the "Dashboard TIF" website.
- Designed an integrated platform combining academic services and administration for the Informatics Engineering study program.

HIMATIF UIN SUSKA

Pekanbaru, Indonesia
Feb 2025 – Dec 2025

Head of Information and Communication Department

Universitas Islam Negeri Sultan Syarif Kasim Riau

Pekanbaru, Indonesia
Sep 2025 – Dec 2025

Student (UI/UX Class Final Project)

- Created an interactive mobile application prototype with an academic theme for the UI/UX class final project.

EDUCATION

Universitas Islam Negeri Sultan Syarif Kasim Riau
